**Overbury Grasshoppers – Roots to grow and wings to fly.**

The nursery is based in Overbury next to the village school and has space for 34 children per day, aged from 12 months to 5 years. We also operate an afterschool and holiday club for Overbury First School. Our ethos is one of nature and curiosity, providing opportunities for all children to reach their full potential through a variety of activities at the nursery and in the local community. We have strong ties with others in the village including the farming team, the estate garden team, the church, and the school allowing us to tap into the vast knowledge of a wide selection of professionals.

## **Back into Action**

At Back into Action Physiotherapy, we believe our approach is unique. We have spent many years working with elite athletes and professional sports people; they are a demanding bunch, so we've had to develop excellent diagnostic and treatment skills. We think there is no reason for you not to expect the very same approach and that remains our aim.

### **What you can expect**

You can expect us to get to know you and understand your specific needs. We will go through a detailed assessment and explain the diagnosis so that you understand it. Treatment is very much a hands-on approach; we need to get your stiff joints moving, release your muscles and improve your alignment to reduce your pain. Rehabilitation is designed to be specific to your functional problems, to get you strong and stable and to work with your lifestyle.

### **We understand**

We understand that builders must build, that desk dwellers sit behind their desks 10 plus hours a day, that farmers spend all summer sat on their tractors. We empathise with you when you want to do an Iron Man before you are 50, that you still want to play rugby at 30 something, trek across a desert for charity or that you are simply fed up with being unable to walk the dog up the hill. We will try to work with you to live your life and achieve your goals.

### **We aim**

We aim not just to treat you, but to fix you and come up with a long-term resolution. We do not want to keep on treating you forever. In fact, we are disappointed if you are not better in a couple of sessions. It is very much a problem-solving approach based on years of experience and sound clinical reasoning. So, if you are fed up with going round in circles and not getting a solution, make an appointment and come and try our common-sense approach.

## MEDICAL

### Halo Medical

Laura Aggett is an orthotist with Halo Medical, she specializes in the treatment of musculoskeletal injuries to complex neurological disorders. Whether you are looking for a knee brace to get back to sports after an injury, or your feet cause you pain every time you take the dog for a walk, or you have a foot drop which has been limiting your activity for years an assessment for a device to aid your mobility will be worthwhile. Laura is now operating private clinics at the Back into Action Physiotherapy clinic in Pammington.

To arrange an appointment, you can contact Laura directly on:

**[laura.aggett@halo-medical.co.uk](mailto:laura.aggett@halo-medical.co.uk)**

### What are orthotics?

An orthotic device is a splint, support or brace designed to add stability, control alignment and assist with pain management.

- At Halo Medical, we tailor every consultation to the needs of the individual.
- We use a combination of made to measure and off the shelf devices to ensure optimum treatment and comfort.
- Our digital scanning and computer aided manufacture of insoles and braces ensures a high degree of accuracy.

### Are you suffering from:

- Sore feet causing you pain or discomfort when you walk or exercise?
- Back pain you can't get rid of?
- Do you have a foot drop which causes you to trip and fall?
- Are you always having to look for small obstacles on the ground when walking?
- A leg length discrepancy which is making you feel off balance?
- Struggling to get comfortable fitting shoes or something always rubs or causes you sore feet?

Then contact us today at [enquiries@halo-medical.co.uk](mailto:enquiries@halo-medical.co.uk) to arrange an orthotic assessment to see what we can do to help you!

## DEER PARK WINES

### **Deer Park Wines**

Deer Park Wines is a family run business with vineyards nestled in the slope of the iconic Bredon Hill, steeped in history. With the first vine planted in 2016, the vines that exclusively supply our wines, are now totalling over 6000, split across three plots. The first and largest plot, Stag Oak Vineyard, borders our iconic Deer Park, where Red and Fallow Deer free roam in nature. All three of the vineyards benefit from Cotswold limestone mixed soils and the expertise of our team which have enabled us to create a selection of wines which are truly superb and full of flavour.

The success of our wines can be seen both nationally and internationally as they have regularly been recognised in wine awards such as Wine GB, International Wine Challenge and most recently the Decanter awards where all of those entered achieved bronze awards.

## **Sheldon Bosley Knight**

Founded in 1843, has grown to become one of the UK's most trusted estate, land, and property agencies with a team of more than 100 and trusted by thousands of happy customers.

What started out as a business focusing on auctions and on-site farm sales, has diversified, and expanded over the years into 10 specialist departments, across four counties, and we are proud to be embedded in the local communities we serve.

We are therefore proud, honoured and delighted to be part of, and supporting, such a great community campaign as the Overbury Playground Appeal. We would like to wish it every success in raising the money it needs for these amazing new facilities which will be of enormous benefit to all the children in this very special community.

And no matter what your property requirements, whether you are buying, selling, or developing, please do visit our Pershore, Winchcombe or Evesham offices, headed up by Lara Hawkins and Angie Hill, to see how our expert and highly qualified surveyors, architects, planners, and estate agency professionals can help get you moving!
